This company profile has been broken down into the following sections:

Introduction:

kashkool & Qanas trading contracting CO has become one of the main cornerstones of the ongoing construction boom in the State of Qatar.

kashkool & Qanas trading contracting CO is leading company in the field of Architectural Glass and Metalwork and was established in Doha in 2014 to service the rapidly growing demand for this range of products in the local construction industry. In this field, the Company functions in both the trading and Industrial sectors.

Since its launch in 2011, kashkool & Qanas trading contracting CO has successfully developed its policy of becoming a supplier of total glazing solutions to the construction industry. As a demonstration of its success in this regard, Alsham has entered into a long-term agreement with Emirates Glass LLC, the leading Middle-East provider of high performance energy-saving glass, to be their exclusive marketing agent in the Qatar market. This agreement has opened the way for Alsham to supply the wide range of Emicool high performance architectural glass at competitive rates.

Moreover, in the trading sector, the Company is a substantial stockiest and supplier of an extensive range of stainless steel hardware required for frameless glass systems including patch-fittings, spiderconnectors, U-channels and other accessories required for bolted glass assemblies, including frameless glass doors etc.

In the industrial sector, kashkool & Qanas trading contracting CO is now developing a strong reputation in the supply of custom-designed glass and aluminium support-systems as well as stainless steel fabrication for handrails and barriers including stainless steel cladding.

The Company has the full capability in terms of turnkey design, fabrication and installation of its entire range of products and is able to provide engineering solutions to a wide range of design problems. All work is executed in-house by teams of qualified and experienced technicians and site-staff directed by Eng. Mohamad Mowaffaq Alkhaiat, who has been involved in the Qatar Construction Industry for many years, and whose mature experience provides the secure foundation for the success of the Company. kashkool & Qanas trading contracting CO believes in a hands-on approach on all projects. That is why a Director of the firm will always be in control of the key functions on our projects. Alsham is equipped with the latest technology and has the necessary staff and resources to ensure the best

professional service is provided at all times.

Vision:

To grow our Company in a sure and steady way to a position as one of the leaders in Qatar for the supply of high quality architectural glass and metal products.

Mission Statement:

To provide our growing Client-base with a comprehensive support in terms of competitive pricing, on time delivery, quality of product, competence in installation and durability in service.

Our Means:

- A safe working environment for our Staff.
- The encouragement of teamwork and initiative in the work-place.
- Professional attention at all levels from start to hand-over of the finished work.
- Design and innovation to meet our Customers the best expectations.
- Close attention to cost-control to ensure long-term profitability.

Approach:

kashkool & Qanas trading contracting CO sees teamwork on every project as the key success ingredient and are responsible for creating this environment. The overall project manager is duty-bound in ensuring effective communication to all levels. Teams are built by combining the strengths of the individual members and refining skills to meet and exceed the Client's expectations.

We also believe in a hands-on approach on all our projects. This is why a Director of the firm will always be in control of the key functions on a project. ALSHAM is equipped with the latest technology and has the necessary staff and resources to ensure the best professional service is provided at all times.

Services:

Following the dramatic growth of the construction industry over the past few years in Qatar, kashkool & Qanas trading contracting CO has found it necessary to develop a diverse range of glass and metal products which are indispensable for the realization of modern architectural designs in terms of appearance, comfort and light, safety, durability, and economy in use.

Our principal products are:

- Aluminum Doors & Windows
- Curtain wall Systems
- Aluminum Skylights & Domes □ Aluminum Composite Cladding □ Interior Cladding:

Wood cladding / Stainless steel cladding / Aluminum cladding / Acrylic sheet cladding / Mirror cladding / Cooper cladding / Glass cladding.

- Kitchen and path room equipment
- Frameless & Spider Glass
- Frameless Bolted Glass Assemblies □ Decorative Glass Work.
- Glass Showers
- Mirrors. (Normal, Shaped, and Sand Blasting Design)
- Fire Rated Glass
- Stainless Steel Handrails & Barriers
- Automatic Sliding & Revolving Doors
- Colored Glass & Mirror
- Perforated Sheets & Mashrabia
- pergolas and shade
- Glass, Aluminum cladding, polycarbonate, composite wood canopies.

| 9-Two Metal cutting machines | 10-Two Electricity generators |
| 11-Pickups & Lifters | 12-Grinders, Cutters, Electrical &Manual tools. |

Workshop Facilities:

kashkool & Qanas trading contracting CO is established in an a 800m² factory in the Industrial Area of Qatar, and employs a wide range of modern equipment and trained personnel.

The factory is equipped with all requisite machine-tools for processing of aluminum doors, windows and curtain wall systems including bolted frameless glass. The Company also handles design, fabrication and installation of aluminum composite cladding panels as well as stainless steel for balustrades and handrails with infills of Fully Tempered or Laminated safety glass. Supplies of raw materials are procured only from the most reputable sources to ensure high quality and durability in the finished product.

The factory is supported by dedicated vehicles to facilitate on-time delivery to site of all required materials and personnel.

However, real success is achieved not just by machinery; it is the man-power which drives the Company forward, and the Management, has taken good care to ensure that the company work-force has been well-selected for their ability on the job and that they receive the required training to stay upto-date in their specific fields of work, either in the Factory or on site. To ensure excellence in production and service, all processes of manufacture and installation are checked to high quality standards by skilled QC supervisors.

kashkool & Qanas trading contracting CO is therefore established firmly on the principles of good management, good materials and good workmanship in order to realize its vision and mission in the Construction Industry of Qatar.

Conclusion:

kashkool & Qanas trading contracting CO is a capable and dedicated multi-disciplinary management consultancy with the correct solution-based approach in meeting and exceeding our Client's expectations.

Our experienced and focussed team are well placed and equipped and contain the correct experience and qualifications to carry out their functions with diligence and skill. It is our vision that ALSHAM may be of service to all prospective Clients in the Private, Professional and Public sector.

Please direct all enquiries and/or requests for additional information to kashkool & Qanas trading contracting CO on the details provided above and let us provide you with excellent service, proving our motto of "Development you can trust. . . "

Our Agencies:

kashkool & Qanas trading contracting CO constantly strives to meet market and Clients requirements. We have created a large number of successful partnerships over the years. We are proud to work with the industry's Key people, and through them provide you with the best possible products.

HEALTH AND SAFETY STATEMENT

1. Basic Protective Gear:

- a) Hard hats must be worn at all times on site.
- b) Eye, ear and respiratory protection are to be issued when the task requires and must be worn.
- c) The minimum dress requirements are trousers and short sleeved shirts, but Company overalls are always preferred.
- d) Safety footwear must be worn (minimum requirement of toe protection) and sandals are NOT acceptable under any circumstances.
- e) Where there is a risk of cuts and abrasions to hands, gloves must be worn.

2. When entering a noise hazard zone, wear ear protection as directed.
3. Know the emergency evacuation procedure and where the Main Contractor's pre-determined assembly points are.
4. Access to the site can only be obtained with relevant security passes, if required by the Main Contractor.
5. All personnel are to attend the Safety Officers' "Tool Box Talks" that will be conducted on a weekly basis, or more frequently when a problem and/or hazards are identified.
6. All injuries, however trivial, must be reported and recorded in the Red File. First Aiders are identified to the workers at the start of the project, or whenever a worker commences work on the Project.
7. Diabetic, asthma, epilepsy sufferers, and persons on medication, are required to report their conditions to their managers in order to allow allocation of work suitable to their respective medical condition.
This information will be treated with utmost confidentiality.
8. Alcohol, drug and solvent abuse is not permitted on site at any time. Anyone suspected of being under the influence of prohibited substances will be refused entry to the site, and in the case of the offender being found on the site, they will be immediately removed.
9. A high standard of clean-up must be maintained, with rubbish and debris being cleared from the building to skips on a daily basis. Keep welfare facilities clean and tidy, and put all rubbish in the bins provided by the Main Contractor.
10. NO fires are allowed to be lit on site, whatever the circumstances.
11. Consumption of food on site must be in the offices or assigned facilities, if supplied by the Main Contractor.
12. Smoking is prohibited, with the exception of designated areas as assigned by the Main Contractor.
13. Personal Radios, Walkman's, CD and stereo players are not permitted on site.
14. Do not indulge in horseplay.
15. Urinating and defecating is strictly and only in the toilet facilities available on site, by the Main Contractor.
16. Have due regard for others safety and workplaces. Respect the works of the order contractors.
17. Keep your workplace tidy. Do not leave materials or equipment where others can fall over them.
18. Do not attempt to lift any load is too heavy for you. Get help.

19. Under no circumstance must any person interfere with, or misuse, any item of plant or equipment provided for the Health, Safety and Welfare of site personnel.
20. Any person found intentionally abusing or damaging any work, equipment or the welfare facilities will be removed from site.
21. Anyone who discovers fault with any plant, machinery or working areas must report this immediately to the Main Contractor's supervisor.
22. Plant is only to be operated by trained, competent, qualified personnel, aged 18 or over.
23. All staff and workers must abide by the speed limit set by the Main Contractor or Engineer, for the Project Site.
24. Do not stand at the back of, or in the blind side of machines, plant or vehicles; they can move without warning.
Make sure the driver knows you are there.
25. Engine is to be switched off when plant is not in use/stationary.
26. All portable tools and temporary lighting must 110V maximum. No dual voltage generators will be brought to site.
27. Scaffolds will not be altered except by scaffolders. Mobile alloy towers are only to be erected and altered by Contractor's trained personnel.
28. Edge protection and guards' rails to be used on all types of scaffolding/mobile towers that exceed 2m in height. However, Risk Assessment may warrant that these measures be taken for heights lower than 2m.
29. Harnesses and other protective devices must be worn when required and secured to fixtures that will support the full weight of a falling person.
30. Always ensure that ladders are tied and footed properly before using them.
31. Do not enter area cordoned-off unless authorized to do so.
32. Lifting equipment must have a 6-month test certificate, damaged slings or chains must not be used.
33. Do not walk or drive through a crane slewing radius if there is material suspended from the crane hook.
Always look up when approaching a crane, if necessary find an alternative route.
34. If we are using any paints, solvents or other chemicals, read the instructions on the container and follow them.
35. Under no circumstances should oil, paraffin or flammable solvents be kept in general store huts.
36. The use of cartridge tools is not permitted.
37. Contractor's Permits are required for the following operations:
 - a) Hot works
 - b) Live electrical work
 - c) Commissioning and testing
 - d) Work in finished area
38. Copies of all relevant Main Contractor's construction regulations should be available for consultation.
Contact the project safety representative if further information is required.
